

Vanilla tubes

- for food industry -

Dear sir/madam,

We would like to introduce you our product range of vanilla glass.

Our extensive program includes round-bottom tubes with flame polished opening and lamellae stopper, screw neck tubes with aluminum screw-caps and vials with screw cap.

These tubes are ideal for the packaging of vanilla pods. The vials are used for packaging with vanilla powder. We have comprehensive documentation for our products. The preparation of the tubes is done in our own production facility (in Europe) and can also be made according to your specifications. A high-quality print is possible. They are sent in our standard cardboard or polypropylene boxes.

Would you require more information, please do not hesitate to contact our sales department.

Tubes, round bottom, soda-lime glass			
Ø [mm]	Wall thickness	Length	Pcs./tray
14,0	0,6	140	398
